

2013 Young Professionals Virtual Forums

~ Participate and interact with the international space community via the internet ~
 Link into the Virtual Forums! Join the IAC from anywhere in the world!

If you would like to present your work at the largest astronautical congress or if you can't make it to the IAC venue this year in China, the Virtual Forum sessions are the answer.

With a computer & internet connection, you can present your paper at the IAC. You don't have to register for the conference and it's free to attend.

We target 35 years old and under for these sessions, but no one is excluded for consideration.

The deadline for abstracts is now 3rd June 2013 but we encourage earlier sending.

4 committees are co-hosting virtual sessions with the Workforce Development/Young Professionals Programme committee:

- **V1-B6.4 - Space Operations (SOC)**
- **V2-B3.9 - Human Space Endeavours (HSE)**
- **V3-B2.8 - Space Communications and Navigation (SCAN)**
- **V5-B1.7 - Global Earth Observation System of Systems (GEOSS)**

To submit an abstract and see the topic, please visit:
<http://www.iafastro.com/index.php/events/iac/iac-2013/vf-2013>

The Virtual Forums sessions are held at IAC. Therefore, if you are able to join IAC in Beijing, you can also present your work in the session room directly from the congress and have your presentation broadcasted in real-time around the world!

For special enquiries about the Young Professionals Virtual Forums, please contact us at:
YPVF@iafastro.org.

HSE YP VF keynote by NASA Associate Administrator for Human Exploration and Operations: William H. Gerstenmaier
 62nd IAC, Cape Town, South Africa, 2011

GEOSS YP VF presentation at
 63rd IAC, Naples, Italy, 2012
